# California OES Weekly Weather Threat Briefing

June 15, 2016  
1:30 PM PST

**Day 1: High Surf, rip currents along SoCal coast,  
and accumulating snowfall in Nrn Sierra**

**National Weather Service**  
*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

**Prepared by: Scott J. Carpenter**  
**801-524-7907**

# Key Points

June 16 – June 22

## Thursday

- High Surf, strong rip and longshore currents for portions of southern CA
- Possible travel delays and hazards to unprepared hikers in portions of the northern Sierra, including Lassen National Park due to winter like conditions above about 6000 ft above sea level.

## Friday-Saturday

- No significant hazards expected

## Sunday-Tuesday

- Excessive Heat across most of southern CA
- Elevated fire weather concerns due to the heat, low humidity, and gusty winds including Sundowner Winds across southern Santa Barbara County.

## Wednesday

- No significant water or weather impacts expected.
